To: Lets Play Forward Administration

My name is Belkis Lora Founder of the Grand Slam Foundation and in my name and in name of all the members of our foundation we want to give infinite thanks for all the sports equipment that you gave us. It was wonderful, we were able to give everything to children who really need them and we know with this equipment they will be able to do their job better and have more fun. It was a lot of satisfaction when we are delivering the equipment many of them hugged them like the great treasure.

We only ask God for many blessings for you, so that you can continue to help so many young people who need your help.

We would like to give special thank to Mr. Antonio for choosing our organization and for being so kind and always willing to bring everything to our foundation

I would be delighted to continue to work with you and together reaching Grand Slam's goal of providing the necessary support for our youth so that they can become successful off and on the field. I trust we will be able to continue our dialogue and that we will find ways to launch a long-standing partnership between Grand Slam and Lets Move Forward Foundation

Once again thanks and God Bless You

Best regards

Belkis Lora
